

I am writing in opposition to the proposal to expand LPFM service so that it can take priority over current FM translator service. I currently listen to K-LOVE radio on FM 94.3 in my town. K-LOVE provides family-friendly programming that is positive and encouraging. There is very little similar programming available in our community on either AM or FM radio today. I am concerned that this proposal would result in the loss of K-LOVE radio programming for the Chicago area. This would leave us without their positive and encouraging impact on this community and for my family.

The service provided by K-LOVE serves the public interest by offering alternative programming for families who want to listen to family-friendly programming. This is so limited in so many communities and it would be detrimental for us to lose it due to this proposal. I urge you not to give LPFM service priority over current FM translator service.

Thank you.
